

Electricity – Additional Power Options For WCA 2026

Electrical supply is offered as a flat-rate package for the entire congress. Exhibitors may choose the appropriate power level depending on their equipment and demonstration needs.

Prices Table – Electrical Consumption (Flat rate for the full duration of the event)

Power Option	Capacity	Price (MAD)	Typical Use
Regular Power	1 KW – 5 KW	2000 MAD	Laptop, chargers, TV screen, LED spotlight
High Power	5 KW – 10 KW	4000 MAD	Medium LED wall, refrigerator, small medical devices
Very High Power	10 KW – 15 KW	6000 MAD	Large LED wall, multiple screens
Extra High Power	15 KW – 20 KW	8000 MAD	Demo equipment, advanced medical devices
Ultra High Power	20 KW – 30 KW	12000 MAD	Heavy demo systems, high-consumption equipment
Above 30 KW	> 30 KW	On request	Industrial or special installations

Important Information for Exhibitors

- Electrical supply is billed once for the full duration of the event.
- Exhibitors must declare all equipment with high electrical consumption in advance.
- Any request above 30 KW requires a technical feasibility check.

Shell Scheme Stands – Included Electricity

All shell scheme stands include a standard electrical supply.
In addition to the power sockets required for stand construction, one free 4-port electrical outlet will be provided for exhibitors’ use in each shell scheme module.

Included free exhibitor sockets per stand size:
6–9 m² . 1x4-port outlet
12–18 m² . 2x4-port outlets
21–36 m² . 3x4-port outlets

Any request for additional power or extra sockets must be ordered separately and will be charged accordingly.

Electricity order deadline: March 13, 2026
Any order received after this date will be subject to availability and may incur additional charges
